

Parts for Personnel Lifts

Personnel Lift Parts - The fold down work platform elevates workers to overhead racks and shelving in a very convenient and safe way. Whenever this accessory is not being utilized, the work platform can be folded down and then kept with no trouble. It consists of a tine lock, a checker floor plate platform, and a long chain along with hook so as to attach the platform to the work truck. This platform is constructed of welded steel and similar to lots of different accessories, has the blue powder coat finish for durability.
