

Rockwell Parts

Rockwell Parts - AxleTech International is a premier supplier in the globe of specialty vehicle drive-train systems and components along with off highway vehicles. The business prides itself on being its customers' preferred supplier. AxleTech strives to meet and exceed their clients' expectations for service, technology, delivery and quality. They believe in working in an environment which supports the highest integrity with empowered teamwork, combined with a unyielding pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively applying principals of ecological stewardship and safety in how they do business. The business has put different programs in place to be able to articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whichever comments or questions, since they are happy to promote and share this policy with a greater understanding of their efforts. They are really committed to preserving and improving the environment. AxleTech has an EHS program which not only protects the environment but which even actively protects their staff and neighbors too.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in manufacturing and designing planetary axles for both military and commercial applications. These applications vary from airport ground support to construction equipment. AxleTech particularly designs axles in order to meet particular application demands. They have more than 1000 various axle specs within their present offering. With more than one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The company is well known in many commercial and military applications. They offer complete axle assemblies used for aftermarket replacement needs, along with servicing axle needs for OE production. Their high mobility ISAS have further details which could be seen in the "ISAS" product selection.
