

Spreader Bars for Forklift

Forklift Spreader Bars - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader producer in the world. They have been a devoted maker of spreaders intended for different applications such as the swap bodies, trailers and handling of containers.

ELME presently has more than 125 workers with all engineering is done in-house by making use of all the newest CAD systems and FEM tools. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks around the globe.

The ELME product range offers spreaders for several container and trailer handling operations. A few of their inventory comprise: Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle carriers, Ship to Shore Spreaders as well as a wide variety of additional parts.

Production and manufacturing of ELME products are developed in highly automated purpose built factory. In the year 2008, they created 1150 spreaders by way of using quality parts to guarantee dependability and top standards. Major characteristics of ELME comprise design simplicity, market reaction and innovative modular spreader concept.
